Who are we?

SmartGP is a Telemedicine company based in the Republic of Ireland, dedicated to exclusively providing accessible, high-quality online healthcare to patients nationwide.

We are here to look after the person. We are a telemedicine service designed for those who refuse to wait in long queues and demand a same-day solution. Through our secure digital platform, we connect you with General Practitioners (GPs) registered with the Irish Medical Council (IMC), allowing you to receive professional medical advice from the comfort of your home or workplace.

At **SmartGP** we are committed to our patients through the following values:

Integrity

We are engaged in clinical safety and professional ethics, ensuring that digital innovation never undermines medical quality.

Resolution

We solve health concerns with clear next steps.

Professionalism

Every consultation is firm, reassuring, and medically responsible.

Why Choose us?

is also distinguished by delivering a high-quality service, featuring the following:

Our service is designed to support healthcare providers and patients alike by alleviating the demand for in-person visits, addressing straightforward needs such as prescription renewals and general medical concerns that can be effectively managed through telemedicine - while ensuring the ongoing continuity of your specialized care and treatment plan.

Platform Availability:

Access to doctors in minutes, everyday including weekends and bank holidays.

Secure:

We're a Certified platform, so you can be sure that all payments are 100% secure and our processes are top-notch and fully GDPR Compliance.

Available When Needed:

We offer immediate access, including weekends and bank holidays.

Comhairle na
nDochtúirí Leighis
Medical Council

Properly Registered:

All our doctors are registered with the Irish Medical Council (IMC) and we're fully aligned with HSE legislation.

The Human Touch:

Our GPs take the time through a video consultation to actually listen, explain all the options, and make sure the patient knows exactly what to do next once the call is over.

Our services

We provide a full range of medical solutions starting **from €45**

Online GP Consultations

Private video calls from the comfort of your own home.

Talk to a Doctor

Get expert medical advice and guidance on your health concerns, symptoms, and current treatments.

Sick Notes & Medical Certificates

Proper sick notes and certificates provided where clinically appropriate.

Prescriptions

Renewals and new prescriptions sent straight to your preferred pharmacy.

On holidays and Need a Doctor?

Medical clearings for those heading abroad.

Ongoing treatment:

For patients with established long-term conditions such as hypertension, hypothyroidism, diabetes, and other metabolic disorders, we ensure continuity of care. Through our application form, you can upload verifiable medical documentation so your treatment can be safely maintained—helping you avoid interruptions in your medication.

We understand that running out of medication can happen. SmartGP takes this into account to provide you with peace of mind.

Please note: psychiatric treatments require additional supporting documentation.

Emergency Referral:

If you believe you are experiencing a medical emergency and are unsure what to do, we can guide you and provide a referral letter to the most appropriate emergency service.

Please note: we are not an emergency medical service. In case of immediate danger, call 999 or 112 without delay.

How *does it* work *for the* patient?

The whole process is fast, simple, and secure:

1

Book Online

Through SmartGP.ie, select the desired service and the time that suits you best, fill in the form, and a doctor will contact you.

2

Appointment Confirmation

You'll get an email or a SMS on your phone with a Secure Link (URL) to start a video call with one of our Doctors at the selected time.

3

Video Consultation

Just click on that link and the Doctor will be there for you.

4

After the consultation

Your digital prescription or sick note will be sent out instantly, if it's needed.

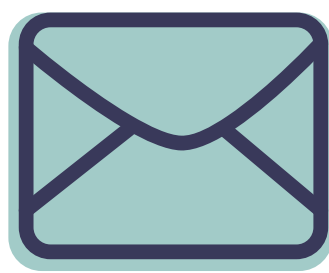

Get in *touch* for Partnerships

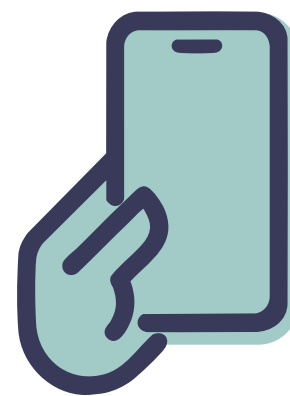

Help us provide healthcare that actually listens to the patient.
